Clothing and footwear with the ***made in Portugal*** label have a notoriety and reputation at international markets, that place these industries, among the most advanced manufacturing and best performing ones worldwide.

ATP, 2019

Scaling a business in the fashion industry can be very hard. So, we provide an integrated service ready to face all the challenges and develop your clothing or shoe line.

Quality and sustainable materials, fair production and transparency are the keys for a successful *fashion brand* and that is why we exist!

**the
market**

about us

sustainable *textile & shoe* manufacturing and development agency

Our company works in the fashion industry for **more than 20 years**, and is based in **Vila do Conde** - The heart of textile and footwear industry in the North of Portugal.

We are a sustainable agency specialized in the *development and production of high quality and sustainable fashion collections*, made in Portugal (Portugal Textile to apparel, and Portugal Shoes for footwear).

We play a reliable role between our clients and a wide range of portuguese certified clothing and shoe/acessories manufacturers, that are ready to fulfill all your requirements.

Sustainable fashion is one of our main goals. Since we have been in the fashion market for a long time, we are continuously working towards becoming a more sustainable company.

When it comes to finding the best for our customers, business, manufacturers, and the planet, there is no finish line. Everyone involved in the process have a safe, fair, and equal working environment, supported in ethical fashion values, like: reliability, fair trade, transparency, cooperation, positive and supportive environment, and of course huge know-how and professionalism. We are able to develop your entire collection with sustainable materials and the highest quality!

We work with fashion brands and influencers

Our Services

Portugal Textile & Portugal Shoes

Sketch & Tech Pack

You send us your sketches or tech pack with all the important information about your product.

Sourcing

So, our sourcing team start searching for fabrics, and other materials, matching all the customers requirements for composition and handfeel. We work with a wide range of portuguese manufacturing suppliers that are fair trade, and are able to work with sustainable and eco-friendly materials.

Sampling

For each order we create a prototype for your approval. After your samples are made, our product development team check samples for you to approve, allowing you to test and refine the functionality of your design. You will receive your prototype and once your samples have been approved, we will begin the manufacture.

Production

The production takes place on one of our high quality suppliers production line. Here, all items are made and quality checked.

Quality Control

Throughout manufacture, all stages are quality checked to ensure the highest standards. Our quality control team will inspect the products to certify that there are no issues.

Labels, tags, packaging

We offer sustainable, recycled and biodegradable customized labels, tags, packaging, hardware and garment accessories to create a fully branded product. If you want, the products can be packed, to be ready for the shipping process.

Warehouse & Fulfillment

We are able to provide you warehouse and fulfillment services. We can receive, pack and ship your items with our partnership service.

Delivery

Once your order is complete and has been quality checked for a final time, it is approved for delivery through our network of reliable global couriers.
